

In 2023, ProVention hired a third party research firm, KDHRC, to assess HALT's utilization, satisfaction, and areas for improvement. As a result, three unique feedback forms gathered input from the following three groups:

**Participants**  
n=41

**Delivery Organizations & Coaches**  
n=21

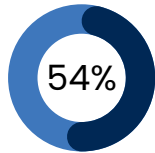

**State Licensees**  
n=7

## Participants

**Can Use HALT Easily**

**Use HALT Most Often On A Phone Or Tablet**

**Can Interact Easily With Their Coach**

**Overcome Barriers i.e. Work Schedules, Transportation**

**Over 85% Of Participants Report Their Overall Health Improving Since Starting HALT**

## Delivery Organizations & Coaches

**Believe HALT Benefits Their Participants**

**Reported Working With An average Of 22 Participants**

**Believe HALT Makes Life As A Coach Easier**

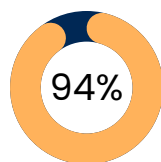

**Would Recommend HALT To Coaches/ Participants**

## State Licensees

**Believe HALT Is A Strategic Tool To Reach Underserved Populations**

**Report that HALT Overcomes Barriers i.e. Work Schedules, Transportation**

**Believe The Support For HALT Is Very Good**

**"HALT is user friendly, coach friendly, and cost effective. It makes learning easy and accessible. Participants can make changes on their own time at their own pace."**  
- Mary M, HALT Licensee
